

that CDC may identify during the next three years. No modification is requested for information collection activities, methodology, or populations of interest from the existing generic clearance. The extension and requested changes are needed to support CDC's planned information collections and to accommodate additional needs that CDC may identify during the next three years. For example, the MTTCA generic clearance may be used to facilitate the development of tobacco-related health communications of interest for CDC's collaborative efforts with other federal partners including, but not limited to,

the Food and Drug Administration's Center for Tobacco Products. The MTTCA clearance should not replace the need for additional generic clearance mechanisms of HHS and other federal partners that may need to test tobacco messages related to their campaigns and initiatives.

The existing MTTCA clearance was granted approval for a total of 138,324 respondents and 21,210 burden hours over a three-year period (annualized number of respondents of 46,108 and annualized burden hours of 7,070). To date, there have been 69,529 respondents and 10,489 burden hours

used in this clearance, leaving a balance of 68,795 respondents and 10,721 burden hours (annualized number of respondents of 22,932 and annualized burden hours of 3,754 for each of the three years in the requested extension). The MTTCA extension would provide approval for an annualized number of respondents of 83,215 and annualized burden hours of 11,255. CDC will continue to use the MTTCA clearance to develop and test messages and materials. Participation is voluntary and there are no costs to respondents, other than their time.

#### ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondents	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total burden (in hours)
General Public and Special Populations.	Screening .....	37,640	1	2/60	1,255
	In-Depth Interviews (In Person) .....	67	1	1	67
	Focus Groups (In Person) .....	288	1	1.5	432
	Surveys (Online, Short) .....	40,987	1	10/60	6,832
	Surveys (Online, Medium) .....	2,733	1	25/60	1,139
	Surveys (In-Depth Telephone and Online).	1,500	1	1	1,500
Total .....	.....	83,215	.....	.....	11,225

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Centers for Disease Control and Prevention

[60Day-20-1185; Docket No. CDC-2020-0020]

### Proposed Data Collection Submitted for Public Comment and Recommendations

**AGENCY:** Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

**ACTION:** Notice with comment period.

**SUMMARY:** The Centers for Disease Control and Prevention (CDC), as part of its continuing effort to reduce public burden and maximize the utility of government information, invites the general public and other Federal agencies the opportunity to comment on a proposed and/or continuing information collection, as required by the Paperwork Reduction Act of 1995. This notice invites comment on a

proposed information collection project titled Youth Outreach Generic Clearance for the National Center for Health Statistics. This generic clearance is designed to facilitate outreach efforts in the fields of math and science to young people (K through college) and those who support them.

**DATES:** CDC must receive written comments on or before April 27, 2020.

**ADDRESSES:** You may submit comments, identified by Docket No. CDC-2020-0020 by any of the following methods:

- **Federal eRulemaking Portal:** *Regulations.gov.* Follow the instructions for submitting comments.
- **Mail:** Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS-D74, Atlanta, Georgia 30329.

**Instructions:** All submissions received must include the agency name and Docket Number. CDC will post, without change, all relevant comments to *Regulations.gov*.

**Please note:** Submit all comments through the Federal eRulemaking portal (*regulations.gov*) or by U.S. mail to the address listed above.

**FOR FURTHER INFORMATION CONTACT:** To request more information on the proposed project or to obtain a copy of the information collection plan and instruments, contact Jeffrey M. Zirger,

Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS-D74, Atlanta, Georgia 30329; phone: 404-639-7570; Email: [omb@cdc.gov](mailto:omb@cdc.gov).

**SUPPLEMENTARY INFORMATION:** Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. In addition, the PRA also requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each new proposed collection, each proposed extension of existing collection of information, and each reinstatement of previously approved information collection before submitting the collection to the OMB for approval. To comply with this requirement, we are publishing this notice of a proposed data collection as described below.

The OMB is particularly interested in comments that will help:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency's estimate of the burden of the

proposed collection of information, including the validity of the methodology and assumptions used;

3. Enhance the quality, utility, and clarity of the information to be collected; and

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

5. Assess information collection costs.

#### Proposed Project

Youth Outreach Generic Clearance for the National Center for Health Statistics (NCHS) (OMB Control No. 0920–1185, Exp. 5/31/2020)—Extension—National Center for Health Statistics (NCHS), Centers for Disease Control and Prevention (CDC).

#### Background and Brief Description

NCHS is authorized to collect data under Section 306 of the Public Health

Service Act (42 U.S.C. 242k). NCHS has a history of reaching out to young people to encourage their interest in Science, Technology, Engineering and Math (STEM). Examples of past involvement include adopting local schools, speaking at local colleges, conducting a Statistics Day for high school students, and, most recently, conducting the NCHS Data Detectives Camp for middle school students.

The success of these programs has inspired NCHS leadership and staff to want to look for new and continuing opportunities to positively impact the lives of young people and expand their interest, understanding of and involvement in the sciences. NCHS requests approval for an Extension to a Generic Clearance mechanism (OMB Control No. 0920–1185) to collect information for these youth outreach activities and to inform future NCHS planning activities. These activities include hosting the Data Detectives Camp annually; hosting Statistics Day annually; creating youth poster sessions for professional conferences (such as the

NCHS National Conference on Health Statistics or the American Statistical Association Conference etc.); hosting a statistical or health sciences etc. fair or other STEM related competitions; organizing a STEM Career Day or similar activity; developing web-based sites or materials with youth focus as well as other programs developed to meet future youth outreach needs, particularly activities that encourage STEM.

Information will be collected using a combination of methodologies appropriate to each program. These may include: registration forms, letters of recommendation, evaluation forms; mail surveys; focus groups; automated and electronic technology (e.g. email, Web-based surveys); and telephone surveys.

OMB approval is requested for three years to conduct the Youth Outreach Generic Clearance for the National Center for Health Statistics (NCHS). Participation is voluntary and there are no costs to respondents other than their time. The total estimated annualized burden hours are 1,750.

#### ESTIMATED ANNUALIZED BURDEN HOURS

Type of survey	Respondent	Number of respondents	Number of responses/respondent	Average burden/response (in hours)	Response burden (in hours)
Questionnaires/Applications .....	Student/Youth .....	800	1	30/60	400
Applicants Questionnaire/Application	Parents/Guardians of Applicants .....	800	1	30/60	400
Applications, Recommendations, and Other applicant-supporting documentation.	School Officials/Community Representatives.	1,200	1	30/60	600
Focus Groups .....	Student/Youth; Parent/Guardian; School Officials; Other.	50	1	60/60	50
Other Program Surveys .....	Student/Youth; Parent/Guardian; School Officials; Other.	600	1	30/60	300
Total .....	.....	.....	.....	.....	1,750

#### DEPARTMENT OF HEALTH AND HUMAN SERVICES

#### Centers for Disease Control and Prevention

[60Day–20–20HO; Docket No. CDC–2020–0017]

#### Proposed Data Collection Submitted for Public Comment and Recommendations

**AGENCY:** Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

**ACTION:** Notice with comment period.

**SUMMARY:** The Centers for Disease Control and Prevention (CDC), as part of its continuing effort to reduce public burden and maximize the utility of

government information, invites the general public and other Federal agencies the opportunity to comment on a proposed and/or continuing information collection, as required by the Paperwork Reduction Act of 1995. This notice invites comment on a proposed information collection project titled Heat-related Changes in Cognitive Performance. The purpose of this study is to collect information on burden of heat strain among miners as well as factors related to personal risk and core body temperature that contribute to individual variability in heat tolerance and to declines in heat-related worker performance.

**DATES:** CDC must receive written comments on or before April 27, 2020.
